MYSTERIOUS CASE

Miss Gillespie, Who Was Shot From Her Window at Rising Sun, is Dead.

THE ASSASSIN IS NOT KNOWN.

The Victim Was a Lady of High Literary and Musical Attainments and the Family Prominent.

A Brother Was Summoned to Produce His Shotgun and All Cartridges He Had With It Before the Grand Jury.

Rising Sun, Ind., Dec. 11.—This "river town" of less than 2,000 people has been intensely excited since Miss Elizabeth Gillespie was shot from her parlor window last Tuesday evening. The excitement increased when the grand jury began its investigation Thursday morning, and since Miss Gillespie died Thursday afternoon threatening conditions exist here.

Officers secured such information that Judge George Downey convened the grand jury in special session and Circuit Prosecutor Theodore Wulber arrived Thursday from Dillsboro to assist the prosecution.

The Gillespie family was one of the most prominent in the county. The victim was a lady of high literary and musical attainments. Her grandfather, father and brother were eminent physicians. Her father was mayor of Rising Sun many years after his service as surgeon in the civil war. Miss Elizabeth Gillespie was 38 years old and lived alone with her mother, Margaret Gillespie, aged 79.

Across the street from them lived the victims' twin brother, James, and her sister, Mrs. W. R. Seward, a widow. Members of these two households were not on speaking terms. After the death of the father they quarreled over the estate. Two years ago James left his mother and Elizabeth to live with Mrs. Seward. Recently the mother deeded her property to Elizabeth. Since then the relations between the twins became more strenuous than ever.

Two other brothers are Dr. William Gillespie, of Cincinnati, and Robert Gillespie, a farmer, residing near Rising Sun. Dr. Gillespie arrived here from Cincinnati the night his sister was shot and was constantly by her bedside until she died. She never regained consciousness. Meantime Dr. Gillespie does not believe the story that is on the lips of everybody in Rising Sun. Before going into the grand jury room Prosecutor Davis advised the brother, Dr. William Gillespie, of his information when the brother replied: "On that suspicion you are wrong. I will fight to the bitter end to prove that it is untrue."

Of the 40 witnesses subpoenaed, James Gillespie, the twin brother of the victim, was the first one called and to his examination the day was devoted while intense anxiety existed throughout town. The summons called for him to produce his 16-gauge shotgun and all the cartridges he had with it. He refused to let the officers into the house to get the gun and cartridges until he consulted John B. Coles, his attorney. On the advice of his attorney the officers were admitted and the gun and cartridges were taken to the jury room. Dr. William Gillespie accompanied his brother and the officers to the court house while crowds gathered everywhere along the route from the residence to the court house.

Thursday night there were all sorts of stories afloat as to what happened at the court house during the day and as to the evidence that is expected Friday when the officers and others who have been investigating the case are expected to testify.

Two gunwads from a 16-gauge gun are in the possession of Dr. Bowers, who extracted them from Miss Gillespie's head. The gun owned by James Gillespie, her brother, is said to be a 16-gauge gun. There are two or three guns of this gauge in this part of the country. The gun found behind the barn after the shooting was a 16-gauge gun, and is now in the possession of Marshal Overly. The gun and gunwads will be taken into court Friday.

THE GROUND PURCHASED.

A New Tobacco Warehouse Will Be Erected in Lexington.

Lexington, Ky., Dec. 11.—The general council Thursday night by special ordinance disposed of a piece of city property to the Loose Tobacco Warehouse Co., recently organized in this city, for the purpose of establishing thereon a tobacco exchange. The property is situated near the Southern depot, and with the extra privileged granted Thursday night this company is expected to make serious inroads upon the Kentucky business of the Cincinnati and Louisville Tobacco Exchanges.

Under the terms of the transfer, it is directed that the company shall proceed at once to construct its warehouse, and it is intended to make this company the distributing agent of the greater portion of the tobacco crops in this section of the state. The tobacco will be sold in loose lots, according to grade, which is claimed to be of greater advantage to both buyer and seller than under the old system.

The council refused to pass an ordinance providing for a sinking fund of \$38,000 to enable the mayor to dispose of bonds for the purpose of land for a public park. Seasongood & Meyer, Cincinnati brokers, contracted to take the bond issue, and now that firm threatens to sue the city for damages because of its action Thursday night.

AS EVIDENCE IN A TRIAL.

A Hog Was Wrapped in Clothing and Then Shot.

Louisville, Ky., Dec. 11.—Attorneys for the Provident Insurance Company, which is resisting the payment of \$74,000 on the life of R. C. Whayne, killed by a shotgun discharge, in order to disprove the contention of the attorneys for the estate that if Whayne had held the shotgun muzzle against his body and then discharged it the gases from the gun would have torn his body open, had a hog wrapped around with clothing such as Whayne wore, and then shot the animal with the muzzle of a gun pressed close against it. The hog will be submitted as evidence. It was brought into court prematurely Thursday morning and caused a sensation.

DOINGS IN CONGRESS.

The First Appropriation Bill Reported to the House.

Washington, Dec. 11.—Senate—The following bills were introduced Thursday: For the purchase of a national forest reserve in the White mountains, New Hampshire, to be known as the National White Mountain Forest Reserve. The bill makes an appropriation of \$5,000,000 to enable the secretary of agriculture to obtain the lands; to provide a government for the Island of Tutuila, and adjacent islands. It is identical with a bill introduced in the 57th congress; also a bill to provide a government for the Island of Guam; to make the provisions of the naturalization laws of the United States applicable to Porto Rico.

House—The house adopted a resolution directing the judiciary committee to inquire into the official conduct of Charles G. Swayne, judge of the United States district court for the northern district of Florida, and to report whether the action of the house is requisite. Mr. Lamar (dem., Fla.) offered the resolution, announcing that he desired to impeach Judge Swayne. A lively debate was had before the resolution was adopted. A number of members on the majority side sought to have the resolution referred to the judiciary committee in order that a recommendation might be had from that committee before voting on its adoption. The first of the appropriation bills, the pension bill, was reported to the house and notice was given that it will be called up Friday for consideration.

FIRE AT SANDRINGHAM.

Queen Alexandra Had a Narrow Escape From Death.

London, Dec. 11.—A fire occurred Thursday at Sandringham and Queen Alexandra and Miss Knollys had narrow escapes. It broke out at 5 o'clock Thursday morning in Miss Knollys' bedroom, in the chimney flue, where a beam is supposed to have been smoldering for some days, and spread to the bedroom of the queen, who was asleep at the time. She was awakened by Miss Knollys, who also raised an alarm, but the flames obtained a good hold of both rooms and considerable damage was done before the fire was extinguished.

The reticence customary at Sandringham was observed in connection with the fire. From later information, however, it appears that Queen Alexandra had a narrower escape than the first accounts of the fire indicated. Miss Charlotte Knollys was fortunately awakened by the smoke in her bedroom, which is immediately below the chamber occupied by her majesty. Miss Knollys rushed upstairs to the queen's apartment and aroused her majesty. Both the queen and her secretary, who were clad only in dressing gowns, escaped from the burning room not a moment too soon, as the floor of the queen's apartment collapsed almost immediately, carrying with it her majesty's bed.

They are not yet prepared to make a definite statement of their intentions regarding the appropriation and up to this time it is said have confined their work to the extent of sounding members of the senate and house.

WAR IS PREDICTED

Gen. McArthur Quoted as Saying a Conflict Between America and Germany is Possible.

THE PACIFIC OCEAN THE SCENE.

Emperor's Growing Interest in South America Places Tremendous Strain on the Monroe Doctrine.

In All Probability a Contest of Arms Between the German Empire and the United States in the Near Future Will Take Place.

Honolulu, Dec. 11.—Much interest has been aroused here by a report of Col. Jones, of the Hawaiian militia, to Gov. Carter, of the territory of Hawaii, in which Col. Jones, in commenting on the strategic importance of the Hawaiian islands and the need of strong defenses, quoted Maj. Gen. MacArthur, U. S. A., as predicting a war in the immediate future between the United States and Germany, and that the principal scene of the fighting would be in the Pacific ocean, with the Hawaiian islands as an objective point.

Col. Jones' report quotes Gen. MacArthur as saying that the pan-Germanic doctrine which is being spread throughout the world is being fostered and propagated by the imperial government in every possible way. It is strong and getting stronger wherever German people settle, even among Germans who have been citizens of the United States for years.

In connection therewith one fact can not be overlooked, to wit: There were few Germans in the American army during the war with Spain, so few, indeed, that the presence of a German was noted as being a rare occurrence.

The theater of operations is changing gradually into the Pacific. The German people are multiplying very rapidly and emigrating in large numbers, the tide of emigration being directed by the German government toward South America. The manufactured products of the German empire overbalance their consumption, so that a market has to be erected for the surplus. The known policy of the emperor is to acquire colonies which will provide markets for such overproduction and places to which the tide of emigration shall be directed for strengthening the fatherland.

Throughout all South American countries the Germans are advancing in commercial power and prestige. The conclusion seems inevitable that the interests of Germany in South America where to-day large colonies numbering hundreds of thousands presage another testing and straining of the Monroe doctrine and in all probability a contest of arms between that power and the United States in the near future, in which event no one can now forecast the attitude of England and other European powers. Therefore, it is the duty of the federal government to make itself as strong as possible, so as to be able to care for itself in any emergency. No nation or number of nations will be in a position to make an attack on the Pacific coast without first capturing these islands.

Gen. MacArthur says the report does not correctly represent his views in any particular and utterly misrepresents them in some. Otherwise he has nothing to say.

Col. Jones is surprised at the publication and says that Gen. MacArthur's expressions made during a social conversation were intended to emphasize the need of strength in these islands.

PITHY POINTS.

Pistol selling and whisky selling are twin evils. Of course Dowle has left his miserable dupes the sack to hold.

A man isn't always attending church when he's out late at night.

It isn't likely that many of Dowle's followers will follow him to Australia.

Mr. John Yerkes won't have the hardihood to come to Kentucky on another election tour, it is opined.

Dowle won't be in any greater hurry to return from Australia than Taylor has been to return to Kentucky.

The life of many a good man would have been saved had not the law been so saving toward the pistol and whisky business.

The man who prays while other men are engaged in eating, or money making is the one to whom the lord lends a listening ear.

The simpletons who put their money into Dowle's hands won't be apt to get any returns even though he should return from Australia, which is not at all likely.

The action of Mayor Carter Harrison and the police authorities of Chicago, looking to a curtailment of pistol selling, is rather a significant thing. Pistols and whisky work destruction.

FOYNTZ Bros. are the only Maysville distillers selling pure liquors by the quart, gallon or barrel, direct from distillery to consumer. Seven-year-old whisky \$2 per gallon. Age and quality guaranteed. Get the best. Office 126 Market street—Watson's old stand.

A CANDIDATE'S PAPER.

Congressman Kehoe Takes the Measure of the President's Message.

[Courier-Journal.] Representative Kehoe, of the Ninth district, said:

"I do not consider it a strong paper. It displays more of the skill of a candidate than the wisdom of a statesman. Important questions of reciprocity and tariff revision, in which so many of our people are now showing interest, are entirely ignored and minor questions, upon which all agree and that are especially popular in certain sections, are given prominence.

"He seems unnecessarily charitable in his slight reference to Government post-office and land office thieves. That part of the settlement of the question of the Isthmian canal route is satisfactory to me.

"The suggestion that we should have treaties making bribery extraditable is about the best feature of the message. I thoroughly agree with the sentiment that it should be the policy of the United States to leave no place on earth where a corrupt man, fleeing from this country, can rest in peace."

PROF. W. T. BERRY.

Former Principal of District School No. 3, Fifth Ward, Chosen to Succeed Prof. G. C. Sherwood.

A called meeting of the Board of Education was held last evening, President Sallee in the chair. After the roll-call, the President stated that he had received the written resignation of Prof. G. C. Sherwood as Principal of District School No. 3, to take effect the first January. On motion, the resignation was accepted, and the board then proceeded to fill the vacancy. It was announced that Prof. W. T. Berry was an applicant, and Secretary Slattery stated that he had an application from Prof. G. G. Lindsley, of Dover. Prof. Berry was placed in nomination by Mr. Dawson, and on motion was unanimously elected. Prof. Berry was Principal of this school for several years, but retired last June to engage in the lumber business. Before coming to Maysville he had charge for several years of the school at Lewisburg, ranking with the leading teachers of the county.

On motion of Dr. Samuel, the resolution below, was ordered spread on the records, after which the board adjourned:

WHEREAS, In accepting the resignation of Prof. G. C. Sherwood, we do so with mingled pleasure and regret, being pleased to know that he has been called to a wider field of action, where his professional abilities will be given a greater opportunity for further development, while regretting to lose his vigorous personality and energetic ideas from our own schools and community. Therefore be it Resolved, That we do heartily recommend him as an honest, thorough, wide-awake teacher, whose attainments are such as to make him a valuable acquisition to any school with which his future lot may be cast.

MR. JOSEPH H. BROWN.

A Well Known Liveryman and Highly Respected Citizen Succumbs to Attack of Typhoid-Pneumonia.

Mr. Joseph H. Brown, whose critical illness was mentioned Wednesday, died this morning at 2 o'clock at his home 17 East Third street. He was stricken about a week ago with typhoid-pneumonia, the attack being of a very serious character from the first. For several days he had lingered in an extremely critical condition. Last evening, it was thought there was a slight change for the better, but it was only temporary, and he succumbed to the disease at the hour named.

Mr. Brown was born near Blue Lick Springs, in August, 1835, and spent his life in this section of Kentucky. In his younger days he was engaged for a time in the furniture business in this city. Later he operated a 'bus line between Maysville and Flemingsburg, and still later owned and had charge of the Maysville and Mayslick 'bus. After disposing of this last line he was engaged in the livery business at Mayslick for several years, moving from there to Dover, from which point he returned to Maysville a year or so ago, and engaged in the livery business on Third, just east of the Russell building.

Mr. Brown was one of the best-known men in Mason County, having a wide circle of friends who learn with sorrow of his death.

Mr. Brown was married four times,—his last wife who was Miss Anna E. Goff, of Dover, surviving him. His first wife was a Miss Kearns, of Fleming County, his second, a Miss Henderson, of Mt. Carmel, and his third, a Miss King, of this city. He leaves three children, Elizabeth, of St. Louis, Dr. Robert Brown, of Dover, and Charles, whose residence is not known. One daughter, Hattie, died some years ago.

The funeral arrangements have not been announced. The interment will be in the Maysville Cemetery.

Attention, Merchants!

Do you want a share of the holiday trade? If so, you should place an advertisement in the daily and weekly BULLETIN. Invite the people to call and examine your stock, tell them what you are selling, give prices and tell them of the good quality of your wares. An advertisement in the daily and weekly BULLETIN will bring good results.

A Dutch lunch will be served to the senior members of the Y. M. C. A. tonight at 7 o'clock in the association parlors.

A song and prayer service will be held at the Y. M. C. A. Sunday at 3 p. m. with Rev. R. E. Moss as leader. The public invited.

T. B. Harrison, of Kinniconick, broke all records for November in this section of the State when he filled his ice house with four and one half inch ice. November turned out about the coldest weather this year that can be remembered in this section.

Mr. Robert T. Taylor, formerly of this city, is reported very ill at his home at Norman, Oklahoma. Mr. Taylor is more than seventy years old, and his friends have but little hope of his recovery. He is the father of the late Dr. Robert N. Taylor, and Mr. John Taylor, late of Murfreesboro, Tenn., but now living at Norman.

Mr. James F. Tandy, late of Somerset, Ky., has been appointed manager of the Singer Sewing Machine Company's business in Maysville, and has entered upon his duties. He has been connected with the company for twelve years, the last two and a half years as manager of the business at Somerset. Mr. Tandy will make special efforts to enlarge the business at this point.

While overhauling stock the other day, preparatory to taking their annual invoice, The Frank Owens Hardware Company came upon a lot of double and triple-plated forks and spoons that have been in the house a decade or more. If you will read their advertisement in this impression you will learn something about the quality of the goods made in those days and what the articles ought to bring if sold at a profit now. They have been placed in the firm's show window to stay until ownership has been changed in consideration of a very nominal price.
